

# DESIGNING COMMUNITY-CONNECTED PROJECTS FOR STUDENT ENGAGEMENT

**JOIN US** for a hands-on workshop that will draw on learning science and practical examples to deepen your understanding of how to build projects that spark curiosity, activate agency, and connect students to real world experiences that help them thrive.

## Walk away ready to:

- **Weave** community connections into your existing curriculum to build competencies aligned with learner profiles and create impactful projects.
- **Design** student-driven projects that connect students to their community, fostering relationships and skills that will help them thrive in a democracy.
- **Apply** a deeper understanding of the teen brain to your classroom, including the ability of projects and play to foster curiosity, agency, and engagement.

**TUESDAY,  
FEBRUARY 11TH**

 **8:30 AM - 2:30 PM**

 **Allegheny Intermediate Unit**  
475 E Waterfront Dr,  
Homestead, PA 15120
